Introduction

- » This updated new Web site is now able to provide Aastra 5000 licences informations as well.
- » Thanks to System ID, the site provides you the complete keycode/function list accordingly to this ID.
- » On top of that, the site even provides you Quantities and a Unique Keycode if the ID is linked to an Aastra 5000 related product.
- » This user guide is based on main screen shots. Any user may easily follow the tracks up to getting the proper new keycode.
Each available function is described in an associated box.

Main Features

» **Keycode Order Placement**

- The 4 steps process describes how to get the proper keycode.
Any user will have to fill in ID first, then product related request and finally order/customer reference.
- Anytime, it's possible to go back and forth up to the final order validation.
- Once ordered, the site immediately delivers keycodes and provides a complete licences inventory accordingly to the system ID.

» **Keycode reading**

- An authorized user may read the keycodes already available for a specific ID.

» **Password**

- Ability for each user to change its own password. This new password is under its own responsibility as Aastra doesn't keep track in any way of this highly confidential information.
And for the same security reasons, Aastra strongly recommends to regularly change passwords.

Order Process (2/4) : Functions and Quantities

The screenshot shows the Aastra web interface for ordering licenses. The page title is "Licenses" and the sub-section is "Order a keycode". The interface includes a navigation menu with "HOME" and "LICENSES", and a sidebar with "» New order" and "» Search a keycode". The main content area displays the following information:

ID	Items to order	Customer reference	Validation
Hardware ID:	03FFFF0302AD4		
Type:	Aastra 5000		
Release:	R5.1		

Below the table, there is a section for "New features:" with the following options:

- Extended ACD
- Break-in
- Hospitality
- Hostel
- CDR > 128 bytes
- Voice RTP encryption
- SIP trunk
- Aastra mobile IP
- Proprietary IP phone
- IP Dual homing
- i2052 CTI
- CSTA
- Directory (100 entries)
- IP Voice Mail (XML)
- Aastra SIP
- IP generic

At the bottom of the page, there are two buttons: "<< Previous" and "Next >>".

Three callout boxes are present on the right side of the page:

- 1a) Select required functions: Points to the "New features:" section.
- 1b) Fill in Quantities required: Points to the input fields for quantities.
- 2) Click on Next: Points to the "Next >>" button.

Retrieve your keycode

Change password

The screenshot displays the Aastra user interface for changing a password. The page includes a navigation menu on the left with options like 'New order', 'Search a keycode', and 'Change password'. The main content area shows the 'Change password' form with fields for 'Previous password', 'New password', and 'Validate new password'. A 'Save' button and a 'Cancel' button are located below the form. Three callout boxes provide instructions: '1) Enter previous and new password' points to the first two input fields, '2) Re enter new password' points to the third input field, and '3) Click on Save' points to the 'Save' button. The user details section shows the current user's information: Lastname: LAHAYE, Firstname: Armel, Email: alahaye@aastra.com, and Login: alahaye. The footer contains the copyright notice '© 2007 Aastra Technologies Limited. All Rights Reserved.' and navigation links 'Home | About | Contact'.
